The Great Person I Admire Most

It is my great honour to stand here to make a speech. Standing here, many great figures come into my mind, scientists, policemen, history makers and so on. The great person I admire most is my maths teacher Miss Li.

She is tall and she always has a smile on her face. She is so smart that she can work out difficult problems quickly. Miss Li is also patient. Whenever we have questions, she is ready to explain them to us with great patience. She tries different methods to make it easier for us to understand. With her help, I have made great progress in maths.

To me, Miss Li is more than a teacher. She is a good friend who cares about us all the time. She often listens to my problems and offers me valuable suggestions. I am really lucky to have a teacher like her. I hope to be a teacher like her with both much knowledge and kindness when I grow up.

Thanks for your listening.
