Sleep plays an important role in brain(大脑) development. Children should get enough sleep. _____ 66 _____ A study says that because of being short of sleep, it is much harder for children to do something carefully. And also they become forgetful and easy to make mistakes. Another study shows that the right amount of night-time sleep is just as important for children's development as healthy eating and taking exercise.

_____ 67 _____ In general a younger child needs more sleep than an older one. Children at the age of 5—11 will need 10—12 hours of sleep a night while children at the age of more than 11 will need less hours.

In fact, many parents don't know how to help their children get enough sleep. Here is something you can do. For children at the age of 5—11, a 30—40 minutes' routine(常规) before sleep is helpful. _____ 68 _____ In the activities, children relax and enjoy themselves a lot, and they will go to sleep more easily.

Children at the age of more than 11 may go to bed late in the evening, talking with friends online, playing games or watching TV. _____ 69 _____ And even they will be tired during the day. So limit(限制) your children's use of the Internet, games and the TV before they go to bed.
