Hello, boys and girls!

Let's talk about our country's high technology!

I have taken C919. It's a large passenger plane made in China. The letter "C" stands for China. The first "9" means "forever" in Chinese culture and the "19" stands for 190 seats.

Look at the picture. Its name is Striver. It can dive (潜水) to a depth of 10909 meters. It's unbelievable, isn't it?

This is BeiDou Navigation (导航) Satellite System (BDS). It is widely used all over the world. If you want to go somewhere, just open the app and enter the destination.

C

You must have heard of me. I'm Li Bai. I'm famous for my poems, but looking back on my full and exciting life, I'd say friendship has been just as important as poetry.

One of my friends is He Zhizhang who is forty-two years older than me. Once we were having such an interesting conversation that we decided to continue it over dinner. After finishing the meal, we realized that neither of us had brought any money. He immediately took off the golden tortoise (龟) decorated on his waist and used it to pay for our dinner. I knew the golden tortoise was given to him by the Emperor. His generosity touched me. This showed how much he valued our friendship.

A letter started another of my friendships. The letter was from Wang Lun. He wrote to invite me to enjoy the ten-*li* peach blossom (桃花) scenery and the ten thousand restaurants in his area. I was expecting to see the special scenery and taste all kinds of food and wine so that I accepted this invitation at once.

But when I arrived, to my surprise, I found that this clever man had used word-play to trick me into visiting him! The ten-*li* peach blossom referred to a lake named Peach Blossom Lake, which was about ten *li* away. The ten thousand restaurants were just a restaurant named *Wan Jia*, meaning "owned by Mr. Wan"! I was impressed by his cleverness, and we enjoyed a good laugh together.

Although my friends and I don't have many opportunities to get together, we keep one another in mind.

28. What is as important as poetry in Li Bai's heart?

- A. Handwriting. B. Art. C. Friendship.

29. What does the underlined word "generosity" probably mean in Paragraph 2?

- A. 慷慨 B. 自私 C. 无奈

30. How did Wang Lun invite Li Bai?

- A. By sending him peach blossoms.
B. By playing a word trick in a letter.
C. By reading a poem about restaurants.

31. What might be the best title of the text?

- A. Li Bai and His Friends
B. Poets and Their Poetry
C. He Zhizhang and Wang Lun

D

Andrew has a mental illness. He doesn't speak. He had used a picture chart to communicate. The pictures stand for words—people, places, food and activities.

(picture chart)

(Letter board)

Years ago, Andrew's parents discovered that he could communicate more by a letter board. He could point to and spell out words and thoughts. Using the letter board needs time and effort for Andrew. He hated to use the letter board, so his parents always offered it to him.

On Andrew's 15th birthday, his mother took him to a shoe store. After buying the shoes, she said, "It's Andrew's birthday today. Fifteen! Now we're off to celebrate."

The salesmen said happy birthday to Andrew. Instead of having Andrew point to the "thank you" on his picture chart, his mother held up his letter board and asked Andrew how he'd like to respond. Andrew pointed to each letter one by one on the board—"Thank you." Andrew's mother smiled.

One of the salesmen asked what it was. "This is a letter board that Andrew uses to communicate," his mother replied. "We've practiced it for years. It's amazing. It's changed everything for us." Then the salesman told them he had a brother called Jason. "Jason is 30 and doesn't speak," he said.

"Andrew, what do you think?" his mother turned to Andrew. Andrew started pointing to letters, "Tell Jason..." She was excited. Andrew continued, "Tell Jason he will change everyone's opinion of him in 26 letters." Andrew's mother and the salesmen were all moved and happy.

Months later, Andrew's mother returned to the shoe store and learned that Jason is now using a letter board to "speak". This is how Andrew affected another person's life in a split second (瞬间).

32. What is the advantage of a letter board according to the text?
 - A. It has many pictures.
 - B. It communicates more.
 - C. It is good for our health.
33. How did Andrew express thanks to the salesmen?

Dear Andy,

It's OK. Don't feel bad about things that have already happened. 36 Just think how you can do better in the future. When I was at school, I was chosen many times to talk to a large number of people. 37

First, I chose a topic that I loved for my speech. 38 If possible, you can have a try. It can help you feel less nervous.

Second, I would make sure I knew everything I had to say. I tried my best to remember my materials as well as possible. So a good preparation is necessary.

Last, I concentrated on my main idea. When your attention is highly focused, anxiety(焦虑) will be under control. 39 You can make it your goal to pass your idea on to the other students.

40 Take every opportunity you have to improve this skill. I'm sure you will give a wonderful speech soon.

Love, Harry

Gardening can make children learn about their favorite plants at an early age. It helps them know where their food comes from. Children can also understand why it's important not to waste food.
