## 专项六 书面表达

### 题组集训

#### 题 组 一

With the rapid development of China, vocational education is obviously becoming more and more important.

China is expected to face a shortage of skilled workers who are able to control robots and high-tech machines. I think it's a chance for some students who are good at controlling machines to meet this demand. Some parents and students think it's good for them to find a good job in the future. However, other parents don't want their children to learn it.

But I believe it's a chance to choose the proper job that fits different students. As President Xi Jinping said, vocational education has a bright future. He called for speeding up the development of the vocational education system in order to train more skilled workers as fast as possible.

So, follow the policy. If we think it properly, we will make a choice wisely.

## 题 组 二

### Reunion

In China, reunion is considered as an important activity in all families. It is pronounced *tuanyuan* in Chinese, and the family members get together to celebrate some traditional festivals such as Spring Festival, Mid-Autumn Festival and so on.

According to Chinese traditional customs, no matter how far and how busy they

are, all the family members will come home and eat the reunion dinner. We all know that the reunion dinner gives us a chance to communicate with each other. It's also happy and relaxing for people to be with families and makes people be closer.

## 题 组 三

### My Hometown

My hometown Nanchang is the capital city of Jiangxi Province. This is a beautiful and civilized city. There are many famous places of interest to visit and much delicious food to eat in it.

In these days, many great changes have taken place in my hometown. Streets are becoming much cleaner. The transportation is getting a lot more convenient and so on. I expect that it will be stronger and stronger, and people will be happier and healthier in the future. And we teenagers should make an effort to play a part in making our hometown more beautiful in our daily life, such as protecting the environment, following the traffic rules and so on.

I love my hometown, and I hope it will be more beautiful in the future.

#### 题组四

Dear Paul,

I'm so excited to tell you that I will get into the Senior High School. But I also have something to worry about.

As you know, I am not an outgoing girl, but in the new school, the things are all new to me. I have no friends there. I'm afraid to deal with so many courses in the new term.

At the same time, I'm also looking forward to the new life in the high school because I can have the chance to challenge myself, to improve my independence and so on. I'd like to make a new plan to help myself, such as searching some information about my new school on the Internet and trying to find out if any of my friends are in the same school. Do you have any advice for me? Waiting for your letter.

Yours,

Li Hua

#### 题组五

Youth is a precious gift and a golden time in our life. When we are young, we are strong and healthy. It is time for us to prepare ourselves to become responsible citizens.

However, middle school students have

come into a sensitive stage, our bodies grow so fast and our minds have to keep up with the change. The boys and girls start to realize the gender difference. The troubled adolescent annoys many teenagers. For the girls, they want to look as beautiful as the commercial models, so they go on a diet and struggle with hunger. For the boys, they want to be as cool as the heroes on TV, so they pretend to care about nothing and go against the school regulations.

The troubles teenagers meet are very typical, and we can talk to our teachers or go to see the psychologist.

#### 题组六

Technology plays an important role in our daily life. We benefit from it a lot and it is changing our life greatly. Of hundreds of technological inventions, I like the high-speed train best.

In the past, it took me about 20 hours from Shenzhen to Shanghai. But now it only takes me about 4 hours. This saves me a lot of time. Moreover, it's comfortable to take the high-speed train because it moves smoothly, and I can do some reading and watch movies easily. I can not only enjoy the view out of the windows but also have a relaxing time on the train. Many people choose to take the high-

speed train because of the lower price than the plane. And it is very convenient.

What a creative invention it is!

题 组 七

Dear Peter,

I'm writing to invite you to take part in our Garbage Sorting Activity. We are going to organize the online class meeting next Friday afternoon. I will share the advantages and meaning of garbage sorting with classmates so that they know the importance of protecting the environment. Then we will show how to sort and recycle the garbage. Besides, there will be a talent show during the activity. I hope you can learn more about garbage sorting by having this kind of activity. You should prepare some publicity materials to call on people to sort the garbage. I'm looking forward to your early reply.

Please let me know if there is anything more that I can help you.

Yours,

Li Hua

题 组 八

Hi, Dave!

I am happy to say that I made a new friend.

His name is Tom. He is similar to me in some ways. We both like music. Both of us truly care about others and we are good listeners. But we have some differences, too. He often wears cooler clothes than me. At school, he is not as hard-working as I am, but he is more popular than me because he is funnier than me. He likes to do some reading in free time, but I like playing sports. That's my new friend. Do you want to make friends with him?

Yours,

Li Hua

六、One possible version:

I like music very much. It gives me energy when I am tired and it also makes me feel happy when I'm sad. Music plays a very important role in our life. If there is no music, our life won't be so interesting and colorful.

Different people like different kinds of music. As for me, I prefer electronic music that is loud because it makes me excited. I also like music that I can dance to. And I like singers who can write their own lyrics. I can't put up with music that is quiet and slow because it makes me sleepy.

What about you? What kind of music do you like best?

五、78-82 DABGE

六、 There are usually some problems between children and parents.

In my family we also have some problems. It's difficult for my parents to understand me completely. When we have different ideas, we always sit down and communicate. I never argue with them loudly. Don't talk with them when they're angry. After they calm down, I begin to express myself. Sometimes I write a letter instead. I also try to understand my parents. They are tired after working a long day. So I will try my best to help them with some chores. I know a good relationship with my parents can make me a better and happier person. I love my parents and I know they also love me deeply.
